

Thank You!

The 7th Barber Vintage Festival wrapped up three days of motorcycle-based fun on Sunday, October 9th, at Barber Motorsports Park. We would like to thank all who participated in this year's event.

We also hope all had as much fun as the staff here at Barber did.

The event which includes a motorcycle parts swap meet, vintage motorcycle road racing, seminars and an airshow continues to grow and attract new attendees. This year was no exception! New additions to the event lineup included the Club Zone and a special event, Ducstock which was billed as the largest gathering of Ducati's in the U.S. A fantastic showing for sure!

Four different bike shows took place over the weekend, all well attended.

Guests from all over the United States and overseas converged on Birmingham for this event. Well over 51,000 guests showed up to take part in this motorcycle celebration! The Greater Birmingham Convention and Visitors Bureau estimated an \$11.5 million economic impact on the area from the festival.

This event continues to support our local businesses.

We at Barber will continue every effort to make the second weekend in October Motorcycle Weekend and Barber Vintage Festival the place to celebrate the tradition.

Thank you again and hope to see you in October 2012!
